terrazzo.

precision-crafted terrazzo surfaces for the most distinguished spaces. from seamless slabs to bespoke in-situ installations, we bring enduring beauty to every surface.

1.

terrazzo slab.

cut with a precision cutting machine with grout (nat) as small as 0.2mm and evenly distributed stones between slabs, giving you a seamless look.

- compressive strength: k500.
- anti cracks
- very high scratch & stain resistance (all slabs are non-porous and non-permeable).
- more variety of design.
- slab is available in 3 size:
60×60 cm | 60×120 cm | 100×150 cm

2.

terrazzo insitu resin.

- application on site without area limitation.
- color is brighter than cement base.
- anti crack.
- compressive strength more than k400.
- very high scratch resistance.
- stain resistance
- seamless application (max 500m²).

3.

terrazzo insitu hybrid resin-polymer cement.

- compressive strength more than k400.
- high crack resistance.
- build with high crack reduction system.
- high scratch resistance.
- stain resistance.
- seamless application (max 50m²).
